Rick

I have a friend who made a lot of money last year and will probably make a lot this year too..... He is interested in the RaPower3 program.

Do you think he should go to you first to do his return? then go to Greg to purchase the lenses. He is going to file and extension so there is no crunch for the 15th.

Does that work or should he go to Greg first?

Thanks
Ted Fullerton

Hi Ted,

Well I almost think that he should get his tax return done so that he will have an idea of what he will need to do before he gets into RA3.

I would be happy to do his return and help him with the planning to reduce his taxes over all.
Let me know what he wants to do.

Rick
