Hi Kerry,

I am not sure if you also emailed Rick Jameson. He is my partner and well versed in the RaPower3 tax benefits. We would be happy to discuss things with you and help you with amended tax returns if that is what you decide to do.

Rick's business phone number 435-669-9225. He has been involved with defending the tax benefits in IRS audits. He will be able to answer your questions more fully than I can at this time.

Regards,

Lori

Hello...

My name is Kerry Martin and I live in Marion, Illinois. I am a school teacher and high school football coach. In 2009 I purchased 10 solar towers through RaPower 3 and IAUS. My accountant is a very good friend, but extremely conservative. He has discouraged me from taking advantage of the tax incentives, credits and depreciation opportunities that go with this type of purchase. He feels it is best to wait until actual energy is being produced. I would like for someone else more experienced in these types of tax situations to assess my situation and let me know what I can do to take full advantage of this purchase. Greg Sheperd has forwarded your name.

Thank you for your time...I would appreciate any insight you might be able to provide.

Riter_Kenneth-01387

sincerely,

Kerry Martin

Marion illinois
